Technical Writing Biography:

Senior Technical Writer with many years of hardware and software-oriented experience (presently consulting). Have produced technical manuals, user's manuals, installation manuals, field service bulletins, rework instructions and parts catalogs. Provided graphics and photographic support to marketing departments.

Presently: Freelance Consultant, operating from the website www.nhphotography.com – offering technical writing services, photography, graphic design, tutoring, etc.

Technical Documentation Tools:

Microsoft Word 2003, Microsoft Visio 2007 (drawing program), Adobe Acrobat (PDF maker), Adobe Photoshop, digital photography and post-processing with Photoshop. Use screen-capture for writing software menus, etc.

1992 to 2002: Presstek, Inc. - Hudson NH

Senior Technical Writer – Designed the technical manual formats for Presstek Publications. Wrote service manuals, installation manuals and operator's manuals plus rework instructions. Presstek produced laser-imaging devices for the printing industry.

Documentation Tools: Lotus Manuscript, Lotus Freelance Graphics, Word for Windows, PowerPoint, Adobe Photoshop, Adobe Acrobat and digital photography.

1989 to 1992: Lotus Development Corp.

Senior Technical Writer – Wrote functional specifications for Lotus 1-2-3, using Lotus Manuscript and Lotus Freelance Graphics. The Functional Specification defines the product, which aligns the activities of marketing, development and validation.

1986-1989: Consultant/Student

Consultant to local industries: DOS, BASIC Programming, C Programming and computer applications. Tools: WordPerfect, Lotus 1-2-3, Databases, etc. Developed programs, tutorials and games in Turbo BASIC for the shareware market. Designed electronic test fixtures for an entrepreneur in electronics.

ADDITIONAL: US Naval Electrician's School and Lowell Institute (technical studies).

Electronics Technician: Raytheon Co.

Physics Technician: AVCO Corporation

Industrial Trainer: Trained industrial employees on components & color code. Designed and delivered an electronics training program to 50 technicians at Raytheon Co.

Teaching: I passed the Massachusetts Vocational Teacher Certification and taught Basic Electronics and Digital Theory in Lawrence and Haverhill Vocational High Schools.

Tutoring: I tutored students on math and science. Tutored digital photography.

Amateur Radio Operator: Designed and built transmitters and other electronic circuits.
